This chart indicates the amount of natural gas that has been saved by Murray Natural Gas System customers since energy conservation measures were instituted on Feb. 1. The chart compares the days of Feb. 1-7 with days prior to the cutback on which almost identical weather conditions occurred.

The chart gives the date, the mean temperature for the day, the usage of gas by industries, usage by commercial and residential consumers, the total usage and the percentage saved since the voluntary conservation effort was begun. Gas usage is given in thousand cubic feet.

The total amount of natural gas saved during the first week of February amounted to 18 per cent when compared with the seven similar days prior to beginning the conservation program.

Murray Mayor John E. Scott and gas system superintendent Tommy Marshall today urged local businesses to continue their 20 per cent cutback in operations in an effort to continue the gas savings.

## Glendale Road Extension To Come Before Council

A contract authorizing the state Department of Transportation to move forward on plans to extend Glendale Road to Ky. 121 is to be considered by the Murray Common Council Thursday.

Murray Mayor John E. Scott is scheduled to ask for the council's authorization allowing him to sign the contract on behalf of the city at the council's regular meeting at City Hall tomorrow at 7:30 p. m.

John C. Roberts, secretary of the Department of Transportation, authorized the go-ahead on the project last November. In a letter to Mayor Scott dated Nov. 9, 1976, Roberts said:

"I am happy to advise you that I will authorize the Department to design and cause (the interconnector) project to be constructed provided that the city of Murray will acquire the necessary rights of way; cause the utilities to be removed or adjusted necessary for the construction of the project; in addition to performing certain construction items and providing certain construction materials as set forth in the agreement."

Mayor Scott said today that if the council grants approval for the project, construction should start "as soon as the weather breaks."

Under the agreement the city will be required to clear the right-of-way and excavate for the roadway.

"All right-of-way for the project has

already been acquired," Mayor Scott said, indicating that no additional right-of-way acquisition was needed.

Although the contract does not stipulate the type of roadway to be constructed, Mayor Scott said that a four-lane, concrete roadway is planned for the interconnector route.

The roadway will begin on the present Glendale Road site just south of the Goodyear Store on S. 12th St. and will extend easterly to Kentucky 121 (S. 4th St.).

Among other items scheduled on the agenda for the council meeting are:

— a report on the city budget from Dr. Melvin Henley, chairman of the finance committee;

— the second reading of ordinance 635, rezoning property on S. 8th Street from residential to professional office;

— discussion of a proposal to lease vehicles for the Murray Police Department; and,

— consideration of applications to fill a vacancy in the Fire Department.

## Local Heart Disease Mortality Above Average

What progress has been made in the last few years in Calloway County toward reducing the mortality from heart disease?

How does the local death rate compare with that in other parts of the country?

The questions come to the fore at this time because this is National Heart Month. Also, because of new Government statistics which show that deaths from the disease have dropped below the million mark in the United States for the first time since 1967.

The decline is attributed principally to a turnaround in the mortality rate from coronary attacks, which have been responsible for two-thirds of all heart disease deaths.

Among residents of Calloway County, out of an average annual mortality of 286 from all causes, some 174 have been due to heart disease, the Government's figures show. This is exclusive of deaths locally of non-residents.

According to the Health Insurance Institute, heart and circulatory diseases cost the nation an estimated \$23 billion a year, including lost income, expenditures for medical care and lost production.

Calloway County's share of this cost, based upon the local incidence of heart disease, figures out to approximately \$4,089,000.

## County Man Arrested On Moonshining

A raid conducted by Kentucky State Police detectives and federal Alcohol, Tobacco, and Firearms department agents on a moonshine still last week has resulted in the arrest of a local man.

Trooper Richard Wright identified the man as Bruce Garland, Route Three, who appeared before U. S. Magistrate Ron Daniels Monday on charges of illegal possession of distilled spirits that were not stamped for tax purposes.

The raid was conducted on a still in the southeast portion of Calloway County, according to Trooper Wright. Federal officials would not specify the exact location of the still, but said that other charges may be made at a later date.

Garland was released on a recognizance bond of \$3,000 by Daniels, and will appear Feb. 24 for a preliminary hearing.

The still and 53 gallons of moonshine were destroyed by the officers conducting the raid, according to Trooper Wright.

## Sunny and Warmer

Fair tonight, low in the low 30s. Mostly sunny and warmer Thursday, high in the mid 50s to near 60. Friday partly cloudy and mild.

## Businesses Adopt 'Conserve Energy' Slogan

By GEORGE W. HACKETT  
Associated Press Writer

Many business firms in Kentucky have adopted a new slogan: "Conserve fuel," and they are following it.

Others are returning to the hours they observed before Gov. Julian Carroll asked all segments of the Commonwealth to hold down natural gas consumption.

## Black History Activities Now Underway At MHS

Several activities are underway at Murray High School for the observance of Black History Week at the school.

All teachers are including studies and projects in their subject fields this week.

Election of the queen was held today. Four nominees will be announced and the queen will be crowned during an assembly Thursday afternoon at 2:30 o'clock. Willie Nell Reed, last year's queen, will crown the new queen.

The Murray High School stage band will play for the assembly. Joe Sills is director of this group.

Dr. Ray Reeves, principal, will introduce the program. Tommy Turner, a teacher and coach, will present the queen candidates. The public is invited to the program.

Bulletin boards have been prepared and pictures of outstanding people were drawn and are displayed throughout the halls.

Some Lexington stores said they are reverting to normal hours today, the time set by Columbia Gas of Kentucky to end its drastic cutback in natural gas supplies.

The utility notified 119 large commercial consumers on Jan. 28 to use only enough gas to keep fire protection equipment from freezing. The action was taken when temperatures threatened to drop below zero and Columbia was afraid it couldn't supply residential customers.

Still in effect, however, are seasonal curtailments which prompted Lexington restaurants to announce they will be closed one day a week.

Thermostats also will be left at 65 degrees or below in most establishments.

The Louisville Chamber of Commerce said its members returned to hours that were in effect before the energy crunch hit the state.

"They feel that by keeping thermostats low and leaving the lights on, they can get the same results," a chamber spokesman explained.

Louisville Gas & Electric already has ordered business and industry to cut their usage by 35 per cent.

The situation is still critical in Henderson, where commercial firms have been given a Thursday deadline to file hours of operation with the city.

"We gave them two choices," said Mayor William Newman. "They could work 40 hours in five consecutive days or 60 per cent of the operating hours that were in effect on Nov. 1, 1976."

Newman said that Henderson wants to tap its summer allocation of gas and

"in order to do that, we have to know what hours will be in force for industry. The Federal Power Commission requires it."

Newman said if a company doesn't file, "we will set their hours. And if people don't comply, we will cut off their supplies."

He said if the city doesn't get extra gas supplies, "we will be out by the first of March."

Newman said the order will remain in force "until our system is stabilized." Paducah's business community has trimmed its hours, and Mayor Bill Murphy predicted this will continue the rest of the month.

"We've requested non-essential establishments to close one day a week," Murphy said, adding that City Hall offices are dark on Friday, Saturday and Sunday.

He said city employees are working longer hours, taking shorter lunch periods, and "it seems to be working well."

One exception, he said, were labor unions representing some city employees.

"The unions wanted time and a half for a longer day, so they haven't gone along," Murphy said.

The Daviess County Courthouse now closes at noon Friday and reopens Tuesday, and business houses have trimmed their hours at least 20 per cent.

Drew Page, director of the Chamber of Commerce, said "everyone is trying to help, and do what the governor asked."

Page said that, industrially, Owen-

sboro and Daviess County "are in good shape because firms realized an energy crisis was approaching and did something about it. They have standby fuels."

State and city offices lowered their thermostats in Bowling Green while merchants cut their hours 20 to 25 per cent.

Western Kentucky Gas curtailed supplies to some industries by 50 per cent but most switched to alternate fuels.

Ashland business firms are still on reduced hours as are those in Winchester.

There has been no gas shortage in the Somerset area but downtown merchants decided to join the conservation move and limit hours.

Also spared was Whitesburg, surrounded by a number of large natural gas producers.

Neither the city nor the county, however, uses natural gas, relying on electricity, fuel oil and propane gas.

Some public offices are working shorter hours and a few groceries are closing early.

Classes resume Wednesday in Clark, Fayette and Bath counties and in Madison County, if road conditions permit.

## MSU Awarded State Grant For Field Testing Of New Project

Murray State University has been awarded a \$51,792 state grant for the development and field testing of 130 instructional units in court reporting to be used by teachers at both secondary and post-secondary levels.

To begin immediately, the project funded by the Division of Competency Based Vocational Education in the Bureau of Vocational Education of the Kentucky Department of Education will extend through May of 1978.

Dr. Marvin Albin, assistant professor in the Department of Business Education and Administrative Management at Murray State and author of the grant proposal, will direct the project.

He said the competency based instructional modules will be developed during the spring and summer and tested at four sites in the field during the fall and spring of the 1977-78 school year.

Each module, Albin explained, will consist of instructional materials and activities to be used by teachers to

bring students up to a level of competency in court reporting that meets specified performance objectives. About 20 of the modules will include audio-visual presentations.

He said 10 teachers from across Kentucky will be involved in four workshops on the campus during the spring and summer to develop curriculum materials for the project.

When completed, the modules will be made available by the state agency to business education teachers in Kentucky at the secondary and post-secondary levels.

Albin, who joined the faculty at Murray State in 1975, earned the B. S. degree at Murray State, the M. A. degree at the University of Kentucky, and the Ed. D. degree at Arizona State University.

## Ft. Heiman Has 'Great Potential For Restoration' Director Says

Ft. Heiman, located in southeast Calloway County, "has great potential for restoration as a Civil War fort," Mrs. Eldred W. Melton, executive director of the Kentucky Heritage Commission and state historic preservation officer, said this week.

Ft. Heiman, which is less than two miles from New Concord and overlooks the Tennessee River, was recently added to the National Register of Historic Places.

Construction of Ft. Heiman was begun in January, 1862, to protect Ft. Henry, Mrs. Melton explained.

"At the outbreak of the Civil War in 1861, the Confederate states constructed Ft. Henry on the Tennessee River and Ft. Donelson on the Cumberland River in order to protect the south from an invasion," according to Mrs. Melton.

Ft. Henry and Ft. Donelson, commanded by Maj. Gen. Lloyd Tilghman, gave the Confederates control over two of the major water routes to the southern states, Mrs. Melton said. They also protected the strategic industrial and railroad centers of Nashville and Memphis from Union attack.

Maj. Gen. Tilghman's fears of a Federal gunboat attack were realized the first week of February, 1862. The

Federal Flag Officer, Andrew Foote, concentrated a flotilla of gunboats on the mouth of Tennessee River at Paducah. Joined with the troops of Ulysses S. Grant, he headed the gunboats up the river to Ft. Henry.

On Feb. 4, Ft. Henry was held by 1,885 Confederates under the command of Col. A. Heiman. The Tennessee River, swollen from winter rains, had flooded the area of the fort where explosives were stored. Across the river the incomplete Ft. Heiman was occupied by 1,100 troops supported by a small battery of artillery.

Lt. Col. M. Haynes, Tilghman's chief of artillery arrived at Ft. Henry from Ft. Donelson on the morning of Feb. 6. The artillery chief convinced Tilghman that Ft. Henry could not be defended as it was surrounded by water and could not be supported by infantry. Gen. Tilghman removed the troops to Ft. Donelson leaving one battery behind to delay the Union advance and to cover the retreat.

The Federal gunboats opened attack on Ft. Henry the afternoon of Feb. 6. After a futile stand, Tilghman surrendered the fort. At the end of the day, Union troops occupied Ft. Henry and Ft. Heiman and Gen. Grant and his

men moved on to Ft. Donelson.

The defeat of Ft. Donelson on Feb. 16 marked a turning point in the war. The Confederates were forced to evacuate southern Kentucky and all of middle and west Tennessee's supply lines had been severed.

By late 1864 Union forces had established large stockpiles at Johnsonville, Tenn., 30 miles south of Ft. Heiman, where supplies were brought in by boat and transferred to trains which carried them to Gen. Sherman.

In October, 1864, Gen. N. B. Forrest, a Confederate Cavalry officer, stationed his troops and artillery at the deserted Ft. Heiman. When the supply steamer, the "Mazeppa" passed by the fort en route to Johnsonville, the artillery fired, destroying it. The Confederate also captured two Union gunboats from Ft. Heiman. With land forces and two gunboats, the Confederates destroyed Johnsonville and the supplies on Nov. 6, 1864.

Ft. Heiman, never completed, today remains as it was during its brief service as a Civil War fort. "Because of its unspoiled condition, Ft. Heiman has great potential for restoration as a Civil War fort," said Mrs. Melton. She added that a similar project has recently been completed at Ft. Donelson.

TWO INJURED—Two persons were injured in a one-car accident yesterday near the Kirksey community according to Kentucky State Police reports. Injured in the one-vehicle accident were Patricia McKinney and her son, Bryne. Murray-Calloway County Hospital officials said today that they were admitted for observation and both are in satisfactory condition.

## Ni Alpha Delta Chapter Of Beta Sigma Phi Has Meet At Center

The Xi Alpha Delta Chapter of Beta Sigma Phi held its first meeting of the new year on Thursday, February 3, at 7:30 p.m. at the Ellis Center with Shirley Martin, president, presiding and members saying the opening ritual.

Debbie Brandon, secretary, read the minutes and called the roll. Vicky Holton, treasurer, gave her report, and also as social committee chairman announced that the Valentine Banquet for members and guests will be held Thursday, February 17, at 6:30 p.m. at the Old Oak Tree Restaurant.

Sue Ann Hutson, chairman of the ways and means committee, gave thanks to members for their part in

making the bazaar a great success. The group voted to change the time of the regular meetings to seven p.m.

Names were submitted for spring rush with the rush party to be held March 3 at seven p.m. and the model meeting to be held March 17 at seven p.m. All members and the rushers should attend these meetings.

Refreshments were served by Barbara Chilcutt and Linda Hodge to Shirley Martin, Vicky Holton, Mary Graves, Debbie Brandon, Carolyn Caldwell, Rheanetta Coleman, Rowena Emerson, Joyce Gibson, Sue Ann Hutson, Debbie Lyons, Jeannie Morgan, Joyce Thomas, and Glenda Wilson.

## COMMUNITY CALENDAR

**Wednesday, February 9**  
Murray Bass Club will meet at Triangle Inn at 6:30 p.m. Members note change in meeting place.

MSU Racers will play Oral Roberts University at 7:30 p.m. in fieldhouse.

Murray Open Duplicate Bridge Club will meet at seven p.m. at Gleason Hall.

**First United Methodist Church Women's Circles** will meet as follows: Ruth Wilson with Mrs. J. B. Wilson, 305 North Sixth Street at 7:30 p.m. and Wesleyan with Mrs. Gordon Moody, 525 South Sixth Street, at 6:30 p.m.

**Thursday, February 10**  
In observance of Black History Week, four Black films will be shown at the MSU Student Center auditorium at six p.m.

Dexter Homemakers Club will meet at the home of Luna Ernstberger at 9:30 a.m. Other homemakers clubs scheduled to meet include South Murray, Town and Country, Progressive, and New Frontier.

Welcome Wagon Newcomers Club will meet at the First Christian Church at 7:30 p.m. with the program by Mrs. Harlan Hodges.

Independence United Methodist Church Women will meet at the church at seven p.m.

Murray Chapter No. 92 Royal Arch Masons and Murray Chapter No. 50 Royal and Select Masters will meet at the Masonic Hall at 7:30 p.m.

Grove 126 Woodmen of the World will meet at the Murray Woman's Club House at six p.m.

Ellis Center will be open for senior citizens from ten a.m. to three p.m. with lunch at noon and table games at one p.m.

Semi-Annual Tractor Pull by Alpha Gamma Rho will begin at seven p.m. in the West Kentucky Livestock and Exposition Center, College Farm Road.

Campus Lights will open at 8:15 p.m. at Lovett Auditorium, MSU.

Town and Country Homemakers Club will meet with Jackie Conley at 7:30 p.m.

**Thursday, February 10**  
Murray Baseball Association will meet at Jeffrey Gym, Calloway County High School, at seven p.m.

**Friday, February 11**  
Shopping day for senior citizens will be held with persons to call 753-9725 by 9:15 a.m. for morning shopping and by 11:30 a.m. for afternoon shopping.

**Friday, February 11**  
North Murray Homemakers Club will meet at the home of Mrs. Esco Gunter at 1:30 p.m.

Lunch for senior citizens will be served at the North Second Street Center at twelve noon with game day to follow.

Magic Silver Show of photography exhibition of 171 photographs will open at Clara M. Eagle Gallery, Price Doyle Fine Arts Building, and continue through March 9.

Shower for Mr. and Mrs. Larry L. Wilson and 2½ year old daughter, Terra Jo, will be at Hazel Community Center from three to six p.m. They lost their home and contents by fire.

Sweetheart Banquet will be held at the Fellowship Hall of the First Baptist Church at seven p.m.

Skits and plays in observance of Black History Week at MSU will be at United Campus Ministry building at 7:30 p.m.

Second night of Alpha Gamma Rho Tractor pull will be at Livestock and Exposition Center at seven p.m.

Second night of Campus Lights will be at Lovett Auditorium, MSU, at 8:15 p.m.

Exhibitions of photography by Kathryn Dugger, Owensboro, ceramics by Kathleen D. Gallagher, Radcliff, and ceramics by Diane M. Friedrich, Louisville, will open at Clara M. Eagle Gallery, Price Doyle Fine Arts Center, MSU and continue through February 23.

**Saturday, February 12**  
Tractor pull will continue at Livestock and Exposition Center at seven p.m.

Third night of Campus Lights will open at 8:15 p.m. at Lovett Auditorium, MSU.

Winter Olympics, sponsored by MSU and Murray Jaycees, will be from eight a.m. to three p.m. in the MSU Fieldhouse.

Young Married Class of Poplar Spring Baptist Church will have a potluck supper at the home of Mr. and Mrs. Connie Morgan at 6:30 p.m.

Women of the Oaks Country Club will have an important call meeting to discuss summer activities at ten a.m. at the club.

Valentine Banquet of Gamma Gamma Chapter of Beta Sigma Phi will be held at KenBar Inn at seven p.m.

In observance of Black History Week at MSU a free chili supper will be served from two to six p.m. at the UCM building. Play, "Black," will be by Plymouth Inner City Players at 7:30 p.m. in Student Center auditorium, followed by a dance at the UCM building.

## Marsha Horton Hostess For Meet Of Gamma Gamma Chapter, BSP

Marsha Horton was hostess for the meeting of the Gamma Gamma Chapter of Beta Sigma Phi held at her home on Thursday, January 27, with twelve members present. The opening ritual was repeated by the members with

**PERSONALS**  
**LOURDES PATIENT**  
Joseph Jackson of Murray has been a patient at Lourdes Hospital, Paducah.

**PARIS SPEAKER**  
Dr. Carol F. (Corky) Harrison, professor of speech at Murray State University, was guest speaker at the meeting of the Rotary Club of Paris, Tenn., on February 3. He related amusing incidents which have happened during his life "to a man with a female first name."

Linda Rogers, president, presiding. Committee reports were given as follows:

Service — The March of Dimes collection will be held sometime late in February due to the weather conditions.

Social — The annual Valentine banquet will be held February 12 at seven p.m. at the Ken Bar Inn. The dress will be formal and entertainment will be provided.

Membership — The next meeting at the home of Linda Fain will be an open meeting. "Music" was the theme of the program with Mrs. Horton playing selections of several artists.

Refreshments were served by Mrs. Horton to Linda Fain, Jackie Morris, Trisha Nesbitt, Joretta Randolph, Linda Rogers, Mary Roseman, Alice Rouse, "Dorothy" Stubblefield, Sylvia Thomas, Edna Vaughn, and Beverly Galloway.

## Coffee Cup Chatter

By University of Kentucky County Extension Agents for Home Economics

Sew bibs for baby or aprons for young "artists" from an old plastic shower curtain. Binding around the edges and ribbon for ties add a decorative touch. The recycled garments can be wiped clean with a sudsy sponge or machine washed. Remember, plastic articles should only be dried on the AIR setting of an automatic dryer. — Judy Hetterman, Hickman.

Divorce is a common problem in families, since one marriage in four is ending in divorce. Marriage breakdown is always hard on children. They may not always show their distress, or realize at first what this step will mean to them. One of the often-overlooked crises in divorce occurs in the life of a child who somehow gets the feeling that he is to blame. It would be unfortunate to cause the child to feel that divorce is a tragedy, or have either parent become a martyr, but it is also just as unfortunate to pretend that there are no regrets, or that divorce is so common that it hardly matters. Divorce in itself is neither a good nor a bad thing; it is only what human beings involved make of it. It is possible for parents to make a success of their divorce even though the marriage has failed. When separation and divorce become inevitable, the child must know that the other parent is not coming back. The child needs to know that both the parents love him no matter what has happened between the parents. Both parents should, if possible, play a vital part in their children's lives, even after the divorce, continuing to show affection and concern for the children. — Sue Fraser, Bardwell.

\*\*\*\*\*  
Sewing machines which have a hinged presser foot are able to safely stitch over pins, as long as you slow down a bit when you are going over a pin. If you have been relying on basting to get you over tricky stitching areas, you might try pinning as an acceptable substitute and time saver providing your machine has the hinged foot. — Dean Roper, Courthouse, Mayfield.

\*\*\*\*\*  
LEISURE TIME Most of us think we don't have any leisure time but we have much more than we realize. Leisure time is the portion of available free time devoted to self-chosen activities as crafts, handiwork, reading, making pickles, etc. It is that time during which we may choose whatever we wish to do. Leisure is a marvelous freedom when we learn to use it for self-fulfilling and self-enriching values. — Juanita Amonett, Paducah.

\*\*\*\*\*  
FABRIC SELECTION Know where to find fabric labels and what kind of information they can give you. Know how much you can afford to pay. Know the width of the fabric. Know how often a repeat of pattern occurs. This helps you to match, or center, patterns. Know the guarantees for such things as shrinkage and colorfastness. If the fabric is a printed design, check to see if it is printed on the straight-of-grain. What is its performance? Does it drape well? Is it wrinkle resistant? Does it stretch? — Mildred W. Potts, LaCenter.

\*\*\*\*\*  
Terrariums are gardens enclosed in glass. They may be in any container that transmits light; globes, fish tanks and large brandy snifters often are used. Many

native and cultivated plants are suitable for growing in terrariums. African violet, maranta, begonia, coleus, croton, peperomia, ivy, philodendron, and wandering-jew are commonly planted. Some of the plants that need high humidity can be grown in a terrarium when high humidity cannot be supplied in the open air. Place it in a location where it has bright light, but never any direct light (sunlight). Turn the terrarium occasionally so the plants in it grow uniformly. Beware of overwatering. Water the terrarium only often enough to keep the soil moist. If the inside of the container becomes fogged, open the cover slightly to ventilate the terrarium and allow the excess water to evaporate. — Maxine Griffin, Clinton.

Use only clean eggs with sound shells in any recipe in which eggs are not thoroughly cooked, such as egg-milk drinks, soft-cooked eggs, poached eggs, scrambled eggs, omelets, uncooked salad dressing, ice cream, meringues, soft custards or puddings cooked on the top of the range. Cracked or soiled eggs may contain harmful bacteria. — Pat Curtsinger, Benton.

## Lift Appliance Atop Platform

Platforms to support washers and dryers in basements and garages, or garbage cans outdoors, can reduce damage from dampness.

Build the platform as you would a pallet, spacing boards or 2x4-inch lumber over crosspieces, which can be 2x4s, 2x6s or 2x8s, depending on the height desired.

Decay-resistant western red cedar is superior for this use.

## Miss Patti Miller Is Honored, Linen Shower

Miss Patti Miller, bride-elect of Carl Hosford, was honored with a linen bridal shower held on Thursday, February 3, at 7:30 p.m. at the home of Miss Martha McKinney on Clarkshire Drive.

The honoree chose to wear an ensemble of brown slacks with printed sweater. She was

## Sigas To Meet At Holiday Inn

The Sigma Department of the Murray Woman's Club will have its sweetheart banquet on Monday, February 14, at six p.m. at the Holiday Inn. Members please note the change in meeting place. Reservations for members and guests should be made by calling the Sigma hostesses who are Mrs. Charles Walston, Mrs. Ed Carroll, Mrs. John Gregory, Mrs. Gary Marquardt, and Mrs. Richard Stout.

presented a corsage of white carnations tipped in red by the hostess, Miss McKinney.

Miss Miller opened her gifts. Games were directed by the hostess.

The theme of Valentine's Day was used in the decorations for the refreshment table which was overlaid with a white lace cloth over red. Red punch, cake in the shape of a heart, Valentine cookies, and other candies were served.

Twelve persons were present or sent gifts. The hostess and her mother, Mrs. John McKinney, presented the honoree a white thermal blanket.

## Stop Competing, Start Improving

By Abigail Van Buren

© 1977 by Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: I am jealous of my younger sister. She's 16 and I'm 18. She's prettier than I am and has a great figure, and I'm too fat. She's also smarter than I am. She even has more personality and character than I have. (She's an extrovert and I'm an introvert.) She has lots of friends and I don't have any. How can I get over feeling so jealous?

JEALOUS

DEAR JEALOUS: It's apparent that you have a very low opinion of yourself. First, quit competing with your sister and do the most with what you have. You can improve your appearance by diet and exercise, and by trying to look as good as you can. Everyone can't be beautiful, but anyone can be attractive and well-groomed.

You can develop a more appealing personality by getting out of your shell and showing a genuine interest in others. Improve your character by listening to your conscience and acting accordingly.

Pray for the strength and determination to carry out the above self-improvement program, and you'll have nothing to be jealous about. Write again in six months and let me know how you're doing. I care.

DEAR ABBY: Last week I got a call from a man named Micky, asking me to tell my husband to stay away from his wife, Carol. He said a friend of my husband's had tipped him off.

When I asked my husband about it, he denied everything and said he didn't even know a "Carol."

A few nights later the same man called to say that his wife had confessed to having an affair with my husband. She said it was the first time she ever did anything like that, and she promised never to see my husband again.

Again I spoke to my husband and again he denied everything. He said someone must be playing a joke on me. Well, my husband has stepped out on me in the past, but the last time I caught him, he put his hand on the Bible and swore he'd never do it again.

I don't know who to believe. This Micky sounded very sincere and said he wanted to keep his marriage together because they have small children.

Abby, I have to get to the bottom of this. How do I go about it? Are lie detector machines available to rent? Have you any advice?

NEEDS TO KNOW

DEAR NEEDS: If you COULD rent a lie detector machine (which is unlikely), I'd advise you to skip it. Better get the Bible out and ask your husband to renew his promise.

DEAR ABBY: I'm dating this girl I care for a lot, and she claims it's mutual, but here's the problem: She smokes and I don't, and her smoking really bugs me.

She promised she'd stop smoking if I grew a mustache. Well, I grew one, but she's still smoking.

Please tell me how to deal with this annoying situation.

TOM IN FLUSHING, N.Y.

DEAR TOM: You could resign yourself to the fact that: (a) your girl's promises are about as permanent as smoke; (b) she's hooked and won't quit for you or anybody else. Or you could get rid of the mustache AND the girl.

CONFIDENTIAL TO YOU: St. Valentine's Day is just around the corner, so be a sweetheart and take a shut-in out for a drive, invite a "single" over to relieve his (or her) loneliness or send someone you like a funny card, some flowers or a little gift. Or call someone you love and say, "Hey, I love you!"

## Bridge Luncheon Scheduled For, March 1 By Garden Department

Plans for the March First annual bridge luncheon of the Garden Department of the Murray Woman's Club were made at the regular meeting of the department held on Thursday, February 3, at the club house.

Verble Yates and Myrtle Douglas will be co-chairmen for the special occasion to be held Tuesday, March 1, at 12:30 p.m. Tickets are three

dollars per person and may be reserved by calling Billie Hall, 753-7886, or Zula Sykes, 753-3002.

The department chairman, Doris Cella, presided at the meeting. She announced that plans for beautification of the entrance to the new city-county park for which funds were voted will proceed pending installation of facilities for water.

Mr. and Mrs. Marshall Henry presented a most informative program on "Planting and Propagating." They are avid gardeners and horticultural enthusiasts and have several interesting craft hobbies as well.

The couple gave helpful instruction to enable plant lovers to reproduce expensive plants for gifts and outdoor plantings. Samples of various propagating media were given by the couple. They included: A mixture of two parts vermiculite, two parts perlite, and one part shredded sphagnum moss as recommended for planting seed; for general potting, purchased potting soil with three parts soil with one part vermiculite or perlite added.

Mr. Henry demonstrated making stem-tip cuttings from plants such as geraniums, begonias, coleus, etc., and leaf cuttings from such plants as African violets, sansevieria, etc. Propagation of shrubs by layering and of certain indoor plants as rubber plant, schefflera, croton, by air-layering was also demonstrated. Mrs. Henry gave some timely hints on the care of houseplants, especially African violets.

Hostesses were Dorothy Byrn, Ann Fisher, Clovis Jones, Artie Morris, Adele Wilson, Betty Hassell, Laura Galloway, Myrtle Cayce, Shirley Morton, Louise Somers, and Barletta Wraether.

Potting small plants for table decorations and prizes at the bridge luncheon to be held Tuesday, March 1, at 12:30 p.m. at the Murray Woman's Club House were, left to right, Myrtle Douglas, Zula Sykes, Verble Yates, Mimi Jordan, Clover Cotham, and Ruth Wilson, members of the Garden Department of the club, sponsor of the special event.

## Of Interest To Senior Citizens

### Discount Cards Are Now Available For Seniors

The Murray-Calloway County Senior Citizens Discount Program is now available. All Senior Citizens that live in Murray or Calloway County, who are 60 years of age or older are eligible for a discount card.

There are 58 participating merchants in Murray and Calloway County who are giving discounts to Senior Citizens. The discounts range from five per cent to as high as fifty per cent. The participating merchants include drug stores, department stores, restaurants, recreational facilities, and various others.

Senior Citizens are asked to donate a sum of \$2.00 per card. This money is used to cover the costs of the program as well as matching funds and operating funds for the Murray-Calloway County Senior Citizens program.

It is felt that the Senior Citizens who avail themselves of this program will see their \$2.00 returned to them many times over from the money they will save with these discounts.

The Murray-Calloway County Senior Citizens, Inc. would like to thank all the participating merchants in this program for their kind and generous support, officials said.

The discount cards can be picked up at the office at 205 S. 7th Street, Murray. Any Senior Citizen desiring more information can contact Alan Blaustein at 753-0929.

### Rainbow Girls Hold Meet At Masonic Hall

Murray Assembly No. 19 Order of the Rainbow for Girls held its regular meeting at the lodge hall on Tuesday, February 1, at seven p.m. with Susan Cates as worthy advisor and Sybil Lasater as mother advisor.

Members present were April Perry, Susan Cates, Rhonda Sledd, Marie Vella, Lagena James, Deldra Folsom, Kathy Black, Vickie Weatherford, Greta Timmerman, Diane McMillen, Donna Smith and Lana Lasater.

Adults present were Audie Mae Alexander, Jack Alexander, Henry Sledd, Frances Churchill, Sybil Lasater, June Crider, Max Weatherford, and Marilyn Weatherford.

The next meeting will be Tuesday, February 15, at seven p.m.

### Sweetheart Banquet Planned On Friday

The annual sweetheart banquet for the youth of the First Baptist Church will be held Friday, February 11, at seven p.m. in the Fellowship Hall of the church.

Special guests will be Jack Crook and Mark Barnett, according to Bill Wilson, minister of youth at the church.

The meal will be potluck with each person bringing one dish. The cost will be \$1.50 per couple or \$1.00 per person. Persons may call the church at 753-1854 for reservations.

### Women Of Oaks Club To Meet

The women of the Oaks Country Club will hold a called meeting on Saturday, February 12, at ten a.m. at the Oaks Club.

Plans for the summer activities for the ladies at the club will be discussed and all members and especially the new officers are urged to attend, a spokesman said.

There are goats in Tennessee and Mississippi that actually fall into a dead faint at any loud sound—a thunderclap, an engine starting up, even the clatter of a feed bucket. The cause is not cowardice, however, but an inherited nerve disorder.

### EDITORIAL

## The Tale Of A Whale

About a century ago, oil came from whales.

As the demand for whale oil in an ever more populous and industrialized country rose, the supply of whales shrank. Conservationists were rightly concerned about the future of the whale, and whalers were rightly concerned about the future of their business. The diminishing supply, coupled with the increasing demand, kept boosting the price of whale oil. Rather than setting a ceiling on the price of oil, taxing it, or rationing it, the price was allowed to rise — going from \$0.43 per gallon in 1823 to \$2.55 per gallon by 1866.

The high price of whale oil had two effects. First, it prompted the consumer (in his own self interest) to conserve what supply there was. Second, it provided incentive to invest in an entirely new and as yet undeveloped industry, that of petroleum.

Petroleum was first taken from the ground in 1859, but not until the whale oil crisis reached its peak did it become profitable to undertake mass-scale drilling. Once the drilling

operations were economically feasible, the petroleum industry began to thrive in the freedom of a relatively uncontrolled market. By 1867 kerosene outsold whale oil and the whale oil prices tumbled. Whale oil lamps soon became obsolete, and the nation entered a new era of modern fuel.

A lot has changed since 1867. The last hundred years or so have seen the most rapid technological advance in the history of man. But just as whale oil priced itself out of the market and opened the way for a superior fuel, the same could happen to petroleum.

Why not move ahead through the proven dynamics of free-market competition to the development of cleaner and virtually unlimited sources of energy — such as solar and geothermal? The need and the technological opportunities have never been greater. In the meantime, why discourage progress by permitting the stagnation created by bureaucratic controls?

(Reprinted from "Kentucky Business," a publication of the Kentucky Chamber of Commerce.)

### FPC Electric Bill Survey

The Federal Power Commission has issued its newest quarterly survey of electric bills in 29 cities nationwide. Nashville, which represents the Tennessee Valley region in the survey, continues to rank among the lowest levels of electric bills.

Nashville Electric Service is one of 160 local municipal and cooperative electric systems distributing TVA power, and applies the TVA R-2 residential rate.

The FPC survey shows monthly electric bills in October for 500 kilowatt-hours of electricity, a level of use roughly typical for a home not using electricity for water heating, winter heat, or summer air-conditioning. Typical home use in the Tennessee Valley is much higher because of these uses, and can reach several thousand kilowatt-hours for electric heating in a winter month.

#### FPC SURVEY OF BILLS IN 29 CITIES (October 1976 bill for 500 kwh — taxes included)

## Usage Tax Bill A Giant Step

by Sen. Richard Weisenberger

Kentucky lawmakers took a giant step toward changing one of the most unfair taxes during the recent special session — the usage tax on automobiles.

House Bill 4, co-sponsored by Rep. Kenny Limes of Murray, could result in a reduction of the usage tax on the purchase of new automobiles. It received overwhelming support from General Assembly members and could possibly become effective next summer.

It all hinges on action by the federal government, which has proposed, but not approved, a decrease in the federal gasoline tax of one cent per gallon. If enacted, the federal government will either give the one cent per gallon

revenue to the state, or take it from the federal road fund and place it in the general fund.

In either case, the state will benefit to the tune of \$18 to \$20 million per year. The legislature decided to pass this windfall on to the consumer by reducing the usage tax. Under the present law, the purchaser of a new car must pay usage tax based on the sticker price of a new car with no allowance made for actual purchase price or trade-in allowance.

Under the provisions of House Bill 4, if the federal government lowers its gasoline tax by a penny, purchasers will be required to pay tax only on the difference between the sticker price and the trade-in value of the used auto.

Both the new and used vehicles would have to be registered in Kentucky and the prices used in the computation would be the manufacturers' suggested retail price for the new car and the "reference manual" value for the trade-in allowance on the used car.

This is not exactly a total solution to the unfair tax burden, but it goes a long way toward solving the problem. A more reasonable plan would be to charge only on the cash difference evidenced by an affidavit to be signed by both the dealer and the purchaser.

The decrease in the federal gasoline tax is due to the impending completion of the nationwide interstate highway system which began under the Eisenhower administration in the early 1950's. It was established to help pay for the costly system.

To further clarify matters, it should be pointed out that House Bill 4 has no effect if the federal tax is not reduced, or if the federal government should decide to pass the savings directly on to the consumer by reducing the price of gasoline one cent per gallon. Congress is scheduled to act on the proposal prior to July 1, 1977.

Of all the complaints I receive daily from constituents, the usage tax clearly is the most unpopular and the one mentioned most often. It's a bitter pill to swallow when you pay, say, \$2,000 plus trade-in on a shiny new car and then get hit for another \$300 or so in usage tax when you register it. In other words, the full five per cent of the new car without allowance for the trade-in.

Hopefully, the federal government will lower its tax and clear the way for Kentuckians to get a better deal at trade-in time.

## HEARTLINE

### HEARTLINE

HEARTLINE is a service for senior citizens of all ages. Its purpose is to answer questions and solve problems — fast. If you have a question or a problem not answered in these columns, write HEARTLINE, 114 E. Dayton St., West Alexandria, Ohio 45381. Senior citizens will receive prompt replies, but you must include a stamped, self-addressed envelope. The most useful replies will be printed in this column.

HEARTLINE: I am 58 years old and I am drawing my civil service pension. I am also a widow and very lonely. Do you know of any pen pal clubs for people my age? R.O.

ANSWER: Heartline has developed a pen pal club for people over 50 years old called Heartline's American 60 Club. For complete information and an application for this club write: Heartline — American 60 Club, 114 E. Dayton St., West Alexandria, Ohio 45381. Please enclose a long, self-addressed, stamped envelope.

HEARTLINE: I am receiving Social Security benefits and will soon divorce my wife. Her child of a previous marriage is receiving benefits as my stepchild. Will the divorce cause his benefits to end? J.L.

ANSWER: No, as long as the child is already receiving benefits prior to the divorce. If the divorce had occurred before the child was eligible to receive benefits, then Social Security would not consider him to be your stepchild and he could not later receive benefits.

If you became unmarried due to your wife's death, rather than a divorce, Social Security will always consider him your stepchild regardless of when the death occurred.

HEARTLINE: What is required to obtain waiver of premium on a National Service Life Insurance policy and can it be retroactive? O.D.

ANSWER: Waiver of National Service Life Insurance premiums may be granted when the insured becomes totally disabled before his/her 65th birthday and the disability continued for six or more months while the insurance premiums were still being paid.

Total disability is defined as any impairment of mind and body which continuously renders it impossible for the insured to be gainfully employed. Waiver can be retroactive up to one year if the six-month requirement is met.

## Sensing The News

Executive Vice President  
United States Industrial Council

### TODAY'S TOPIC: THE STATE OF THE WORLD

While the country's attention is focused on the devastating effects of the worst winter weather in a century, Americans cannot afford to ignore ominous developments affecting foreign and military policy.

Indeed, in view of the existing and emerging communist and revolutionary threats, the state of the world is as much a concern of the American people as the state of the nation.

President Carter has entered office at a time when the United States has great need of a vigorous foreign policy, strongly keyed to its national interests. All signs, however, point to a weak international posture. Though the communist regime in Vietnam is driving former South Vietnamese into "reeducation" camps — a euphemistic term for concentration camps, Andrew Young, the new U.S. ambassador to the United Nations, wants America to recognize the new Red Vietnam.

Guerrilla forces based in the People's Republic of Mozambique are stepping up terrorist war in Southern Africa, but the new State Dept. team is determined to increase pressure on anti-communist Rhodesia and South Africa — major sources of strategic metals for the United States.

If ever there was a need for a strong moral position on the part of the United States, it is with regard to the evil of Soviet totalitarianism. Tragically, President Carter announced Jan. 30 that he was "unsure" whether it was just to condemn the Soviet Union for its harassment of Andrei Sakharov, the leader of Soviet dissidents. In making this comment, he signaled to Moscow that he wouldn't give moral support to those in the communist world who seek freedom from oppression.

Believers in a strong foreign and military policy also are alarmed at the appointment of Paul Warnke, former defense adviser to Sen. George McGovern, as head of the Arms Control and Disarmament Agency. Mr. Warnke is a consistent foe of a strengthened free world defenses.

On the Panama Canal front, reports from Washington indicate that the new administration intends to push ahead with a new treaty that will give the Panamanian regime what it wants at the expense of U.S. security.

Americans concerned about foreign policy also are disturbed about developments at the State Department — always the soft spot in the U.S. government. Secretary of State Cyrus Vance has recruited second-echelon assistants who are well-known soft-liners on foreign policy, such as Anthony Lake, the new head of the Policy Planning Council, and Richard Holbrooke, a former editor of Foreign Policy.

Mr. Lake, a former Kissinger aide, was a bitter foe of U.S. intervention in Cambodia-intervention which was aimed at striking the communists' privileged sanctuary in that country.

Believers in a policy of firm resistance to communist and aggressive Third World regimes have no confidence in the readiness of Messrs. Lake and Holbrooke, for example, to give President Carter tough, realistic advice. Both have close ties to the dovish Carnegie Endowment For International Peace.

It is important to bear in mind that freedom and civilization hang by a thread. As Vermont Royster, former editor of *The Wall Street Journal* said in a recent essay, "civilization has in fact stood on the razor's edge between preservation and destruction" for thousands of years. The barriers between civilization and barbarism "have always been fragile," he added.

The pressures against the free world have never been more intense. The Soviet Union has vastly augmented its strategic and conventional military forces in recent years. Revolutionary groups and terrorist organizations are trying to destroy civilized governments from Southern Africa to the Middle East, and from North Asia to South America.

The key to survival of freedom and civilizations is the will of the United States. It is imperative that the people speak out early in the Carter administration and let the President know that they reject a policy of weakness.

### Bible Thought

And when he was at the place, he said unto them, Pray that ye enter not into temptation. Luke 22:40.

When prayer ceases, temptations begin. Satan will tempt to bring out the worst; God will test to bring out the best.

## Isn't It The Truth

Man is fortunate in that he can live almost anywhere — in any awful climate — and still remain healthy. All he needs is necessity and determination. It helps, too, in putting up with horrible weather if there is money in it; which is to say, more people live where it's too hot, too cold, too wet, too windy or too much.

## The Editor's Notebook

By GENE McCUTCHEON  
Murray Ledger & Times Editor

Today's column originally appeared as an editorial in the Santa Ana (Ca.) Register.

We feel it's worth repeating, so here it is:

There are three major stages to all federal grants:

First, the grant is received amidst plaudits and expressed gratification for the "free" funds to carry out this or that pet project.

Next, come the controls with regulation piled upon regulation couched, usually, in bureaucratic bafflebagg.

And, last, repayment, by the taxpayers, in dollars for the dimes or quarters received by the local authorities in the form of the grants.

Comment can be skipped on the first stage since, in retrospect, it becomes only bait for the attached hooks which sink ever more deeply into the victims.

It is with the second stage that disillusionment begins to appear. The red tape and controls may start as a trickle at first, but the pace soon ac-

celerates and local entities soon find themselves inundated. The "Sword of Damocles" hangs over the heads of non-compliers by the thread, and threat, of funding cut-off. And, even with the funds cut-off, the demands for reporting to the regulators may not cease.

A segment of society, finally beginning to wake up, is making some of the loudest complaints. Colleges and universities are finding that they are spending millions every year on paper work alone trying to satisfy the unending demands of the federal bureaucracies controlling the grants. One university head labelled it "bureaucratic blackmail."

There is an element of poetic justice here, since leaders in higher education have often been in the front ranks of grant grabbers. This generation of educationists has not been noted for a reticence in seeking funds lifted from the taxpayers by the feds.

Obviously, they should have been learning, then teaching, the economic facts of life concerning proliferating bureaucracy. Certainly, there was plenty of historic documentation for them to utilize.

The third major stage slips in almost unnoticed but with devastating potential to bankrupt us all. For the "grants" were only made possible by debt. And the repayment of compounded federal debt reduces to compounded losses, to the taxpayers, via direct taxes and the indirect tax of inflation.

## Today In History

By The Associated Press

Today is Wednesday, Feb. 9, the 40th day of 1977. There are 325 days left in the year.

Today's highlight in history: On this date in 1825, the House of Representatives elected John Quincy Adams President after an election in which none of the candidates received an electoral majority.

On this date: In 1718, French colonists arrived in Louisiana.

In 1773, William Harrison, the ninth American President, was born in Charles City County, Va.

In 1870, the U.S. Weather Bureau was established.

In 1942, the former French liner "Normandie" burned and capsized at a New York pier as it was being outfitted as a troop transport.

In 1943, the World War II battle of Guadalcanal in the Pacific ended in an American victory.

In 1962, Jamaica became an independent nation within the British Commonwealth.

Ten years ago: Secretary of State Dean Rusk rejected North Vietnam's call for an unconditional halt to U.S. bombing.

Five years ago: President Richard Nixon said the world was closer to a stable peace because his administration was dealing with what he called the "opportunities of tomorrow."

One year ago: Patricia Hearst testified at her trial that she took part in a bank robbery only because she was threatened with death.

Today's birthdays: Former Secretary of State Dean Rusk is 68. Sportsman Bill Veck is 63.

Thought for today: Education is the ability to listen to almost anything without losing your temper or your self-confidence. — Poet Robert Frost.

### Let's Stay Well

## Eye Donors Needed

By F.J.L. Blasingame, M.D.

Q: Mr. DR. would like information about corneal transplants. He wants to know if more operations are being done and whether eye donations continue to be needed.

A: The number of corneal transplants has been increasing. More eyes have been available from donors so the waiting period for surgery is not that long. However, a shortage of donations persists.

Eyes must be removed within four hours after the death of the donor and placed in an eye bank or transplanted to the recipient. If necessary, the donor's tissue

can be preserved for up to four days.

Sources are people killed in accidents, patients undergoing operations that carry a high fatality rate or those dying of certain diseases. The source of the donor tissue is never made known to the recipient.

Some states have a program that allows motorists to indicate on their driver's licenses that they wish to donate organs, including eyes, for transplant.

I suggest that you ask your physician for additional information or call a hospital in your community or your local Society for the Prevention of Blindness.

### Drinking, Driving Penalties in Europe

Q: Mrs. BH states that she and her husband are planning an automobile tour of Europe. They expect to follow the custom of drinking wine with lunch and dinner, but friends have cautioned them about the severe penalties in Europe for driving a car after drinking. Mrs. BH asks if wine with meals might cause a problem.

A: In general, penalties for driving an automobile after drinking, even after drinking wine, are much more severe in Europe than they are in the United States.

Wine with dinner after no more driving is to be done, will probably be sufficiently digested before the next morning so that no alcohol appears in your blood. But Norway requires that no alcohol be consumed for six hours after a trip, in case authorities want to check the driver's blood for alcohol.

Some nations penalize all passengers who are riding with an intoxicated driver.

Drinking wine with your meals may cause a problem, and it is preferable that you not drink alcohol in any form if you are to drive and tour.

## McBride Takes Lead In USW Union Election

PITTSBURGH (AP) — Establishment candidate Lloyd McBride, seeking to brush aside rebel Edward Sadlowski in a bid for the presidency of the United Steelworkers union, took an unofficial 2-to-1 lead in early election returns.

Both camps said more than 550,000 of the 1.4 million members voted Tuesday, but the turnout was not as heavy as expected in the hotly contested race to replace I.W. Abel.

An Associated Press survey gave McBride 143,080 votes to 85,451 for Sadlowski, with 2,584 of the union's 5,000 locals reporting.

However, returns from larger locals in the basic steel industry, where Sadlowski expected to do well, were not yet available.

Unofficial returns from McBride's staff gave the 60-year-old St. Louis resident 154,010 votes to 90,685 for Sadlowski with 2,656 locals reporting.

"A McBride victory would mean a continuation of stable relations with our industries and our membership," said Abel, who made an appearance at McBride's headquarters early today.

But ballot counting in the Sadlowski camp gave the challenger a 39,701 to 33,479 lead on returns from 865 locals.

"McBride has spent a career putting out liar's figures," Sadlowski told supporters at his Chicago headquarters. "But the steelworkers have taken their union back for the first time in a quarter of a century."

Interest in the outcome extends far beyond USW union halls.

As a contract pace-setter and the largest member of the AFL-CIO, the USW plays a key role in the nation's labor movement. What the union wins at the bargaining table can also influence the national economy by affecting steel production and prices.

The most glaring contrast between the two candidates is their approach to labor-management relations. McBride agrees with Abel that a degree of cooperation with industry is necessary to create stability that will benefit both workers and businessmen.

A prime example of that philosophy is the union's Experimental Negotiating Agreement (ENA) with the major steel firms. ENA prohibits a nationwide steel strike in favor of binding arbitration for unresolved contract issues.

Sadlowski is bitterly opposed to ENA, calling it a sellout that strips the union of its only viable weapon. He pledged to abandon it if elected.

"Our slate represents what the rank and file on the shop floor have been demanding for years. Companies are scared to death that we will win," he said recently.

McBride expected to do well among older voters and in the West, South and Canada. He conceded Sadlowski's strength lies in the industrial Northeast and Midwest, where most of the union's basic steel members — the traditional pool of discontent — are located.

If the election is close, it is sure to be contested and that could cause problems.

Basic steel negotiations open next week and Abel said it's possible that the preliminary round might be postponed if the election's outcome is not

clear. He also said he'd quit before his scheduled June retirement if Sadlowski wins.

Both the union and the Department of Labor have taken precautions against election chicanery in an effort to avert a challenge.

Even so, a few hours after the polls opened, Sadlowski's camp said it began receiving allegations of widespread vote fraud from across the nation.

## Convention To Be Held In Cincinnati

The 25th annual convention of the National Science Teachers Association (NSTA) will be held this year from March 25-29 at Convention Center in Cincinnati, making it easily accessible to Kentucky scientists and teachers.

Featured speakers will be anthropologist Margaret Mead, behavioral psychologist B. F. Skinner, and director of the Salk Institute for Biological Studies, Jonas Salk.

NSTA is the world's largest organization dedicated to improving science education on all levels. Membership is open to anyone interested in furthering science education.

The conventions "form a showcase of informed, disciplined individuals intent on the improvement of science education and dedicated to the scientific enterprise," said Sylvia K. Shugrue, NSTA president.

NSTA's more than 40,000 members are science teachers in elementary and secondary schools, colleges and universities, science educators and supervisors, scientists, and business and industry representatives.

Non-members are also invited to participate in convention activities. The deadline for advanced registration is Feb. 18, 1977.

Kentucky residents wishing further information on the convention should contact Frank Howard, Science Consultant, 1817 Capital Plaza Tower, Frankfort, Ky., 40601 at (502) 564-3749.

**KEY PLAY**—One of the key plays in the Murray High win Tuesday came here. Brett Harcourt (11) of the Tigers drives the lane and scores on a three-point play with 2:20 left in the game, putting Murray within striking distance at 69-66. Raymond Sims (10) later hit a bucket to make it a one-point lead then Bill McHugh (23) gave Murray the win with his bucket with 60 seconds left. Also in the picture are George Phelps (55) of the Marshals and Frank Gilliam (52) of the Tigers.

(Staff Photos by Mike Brandon)

## Tall And Talented Titans To Visit Murray State Tonight

By JOE TOM ERWIN  
Murray State's Racers, 15-5 overall and 7-2 in second place in the Ohio Valley Conference, after weekend wins over Eastern Kentucky and Morehead, will play Oral Roberts at Murray tonight. Oral Roberts is 16-5 against a tough schedule of such foes as Tulsa, Oklahoma, Oklahoma State, Southern California, North Carolina, Illinois State, Kansas, and Virginia Tech.

**ROUGH ON THE HEAD**—Bill McHugh gets smacked in the head as he goes inside the baseline. Guarding McHugh from the front is a high-leaping Greg Schwinghammer while George Phelps (35) and Monty Moss (12) watch.

(Staff Photos by Mike Brandon)

in Anthony Roberts who was averaging 31.4 points at the last NCAA statistical report. Roberts is a 6-6 senior forward from Chattanooga, Tenn. The Titans also have one of the tallest players in the country in 7-5 freshman center John Hollinden of Evansville, Ind. He is injured and will not play, however.

Mike Muff, who had 24 points and 15 rebounds against Morehead, leads the Racers in scoring with an 18.1 average. Grover Woolard who had scored 24 points against Austin Peay and 22 against Eastern Kentucky before slumping to 10 against Morehead, has averaged 15.6. Zach Blasingame, the team's best percentage shooter, has averaged 11.0. Jimmy Warren 9.9, John Randall 9.1, Donnell Wilson 6.3, Danny Jarrett 2.7, and Lenny Barber 2.7.

Muff also leads the team in rebounding with 8.7 a game. Woolard leads in assists with 9.0.

Overton was elated with the Racers' sweep of Eastern and Morehead but said that the more games his team won, the more important it became to keep winning.

"I thought at one time I'd be happy with a winning season, and then with a shot at the league first division and a place in the tournament. Now, we're thinking about a conference championship. And it's certainly not out of our reach if we play to our potential and get a break or two."

(Staff Photos by Mike Brandon)

## Tiger Girls Drop Contest To Marshals

In a previously unreported game played Monday night at Calvert City, the Murray High girls' basketball team was upset 46-41 by Marshall County.

"The Tigers were in serious foul trouble throughout the game. After the first quarter of play, the Marshals held a 17-11 lead and by intermission, had stretched the margin out to 11 at 27-16."

(Staff Photos by Mike Brandon)

# Tigers Score Miraculous Win Over Marshall County, 70-69

By MIKE BRANDON  
Ledger & Times Sports Editor

You've probably heard it said a million times, especially after the hometown team loses, that it was "more like playing seven men than it was five."

In that case, the people are talking about the officials. But when Murray High School plays and beats someone, it's usually always seven men. And the officials have nothing to do with it.

Such was the case at Benton Tuesday night as Murray came back from the dead to score a miraculous 70-69 win over Marshall County before a capacity crowd.

(Staff Photos by Mike Brandon)

With 45 seconds left, Marshall County forward Greg Schwinghammer missed from under and Gilliam rebounded for the Tigers. Only one clock in the gymnasium was working at the time and that one wasn't working too well.

Murray worked the ball around and called a timeout with 30 seconds left on the clock. The Tigers took the ball and went into a freeze and when there should have been five seconds left on the clock, somehow there were 15 seconds left and Murray had just gotten called for a five-second violation.

But the Tigers controlled the tip and this time, the clock worked, at least better than before. Marshall County stole the ball away with only two seconds left but still had time to go down and get up a shot, which was partially deflected by Sims and that was the game.

"It was one of those games that in your bad dreams, you hope to win. We were really fortunate to win. But I've said this a hundred times this season, our kids never quit."

"I think the key was our pressure defense in the fourth quarter. We tried playing them man-to-man early but just couldn't match up with their size."

"We stuck with our pattern offense. When you're behind,

you have to control your game. This game started out just like the Symsonia game where we got way behind early and lost."

"We talked some about that game this year and we've learned some lessons from it," Miller added.

Both teams had 48 rebounds. For Murray, Hudspeth had 15 while Perry had 12. Schwinghammer, a 6-3½ forward, grabbed 11 for the Marshals while 6-4 George Phelps had 10.

Jeff Copeland, a 6-2½ junior guard, led the scoring attack

with 20 points and he also hauled in nine rebounds. Schwinghammer added 18 points while Jeff Brandon and Monty Moss scored 12 and 10 respectively.

For the Tigers, Sims fired in 18 points while Gilliam and Hudspeth each had 15 to pace the balanced attack. Bill McHugh and Brett Harcourt each scored eight while Perry scored six before fouling out.

"They just wore us down with their bench," Leeper said. "We played in the first half like we are capable of playing. If we keep after it, something good is going to happen," Leeper added.

That "something good" may or may not happen this week. The Marshals, now 11-8 on the year, have the formidable task of playing top-rated Paducah Tilghman on the road Saturday before hosting second-ranked Symsonia Tuesday.

Meanwhile, the Tigers who are now 11-3 on the season, play at Hickman County Friday in their final road game before beginning a four-game homestand in the MSU Sports Arena, next Tuesday by hosting Mayfield.

**DOUBLE DOSE**—Jeff Brandon (30) of the Marshals gets a double dose of defense as he is guarded by Bill McHugh (23) and Lindsey Hudspeth (32) of the Tigers. McHugh picked up a foul on the play.

# Lakers Rally But Drop 84-81 Game To 'Flash

By BARRY WILLIAM DREW  
Ledger & Times Staff Writer

When the hinges on a door get tight they give off a sound called a "squeak." And, it follows, logically, a close game of anything is called a "squeaker."

Tuesday night the Lone Oak Purple Flash and the Calloway County Lakers played a "squeaker" in the Murray State Sports Arena. In fact a whole can of 3-in-one oil couldn't have taken the "squeak" out of the door as the Flash slipped by the Lakers 84-81 in a game that was undecided with nine seconds left.

The Lakers drew first blood with a field goal by Jimmy Lamb and the Lakers, briefly, held the lead. Calloway held the lead once again in the second quarter but, except for these two moments of advantage, the Lakers had to play "catch-up" basketball the rest of the way. They nearly pulled it out.

First quarter action ended with the score knotted at 20 all and the door just let out a little "squeak." It was just warming up for what was to come later.

Outscoring the Flash 6-2 to begin the second quarter the Lakers pushed the lead out a little to 26-22 but the Flash came right back to lead 29-28 with 4:55 showing.

A late rush, scoring 7 unanswered points with less than 2:00 to go in the half, boosted the Lone Oak lead to 12 at 46-34 at the buzzer. The Flash seemed to have the door wide open with a commanding lead and some very hot shooting from the field.

Ah, but the best was yet to come!

"We knew that Lone Oak was a good shooting, high-scoring team," Laker coach Robert Slone said. "They play really well one-on-one and even with the lead they never slow down. We played our way into some early foul trouble and they didn't foul much in the first half. Lone Oak puts a lot of pressure on a team and they stay with it."

In the third quarter both teams scored the same number of points 15-15, but that wasn't the story of the quarter because with 3:17 on the clock Calloway was down by 16 and things were looking a bit grim.

A couple of trips to the foul line by Mike Wells and Glenn Dale Olive trimmed the Lone Oak lead back to ten at 47-37 with 1:46 left.

The Lakers enjoyed a super night from the foul line nailing 27 of 28 attempts. Just a little more fuel for the fire.

At the buzzer ending the third quarter the Flash was still up by 12. Calloway seemed to be out of it behind by 12 with the score 49-61.

Fourth quarter action saw Lone Oak playing the same kind of game as they had all night. They maintained the lead by at least ten points and twice had the Lakers down by 14 points and with less than three minutes down by 16. Only 2:39 showed on the clock and the score was 63-79.

Calloway came alive! Eight points later the Lakers had whittled Lone Oak's lead down to a more manageable 71-79. The clock still showed 1:33 and it wasn't over yet! Not by a long shot.

"Calloway is a fine ballclub and they just don't give up," Flash coach Albert Norris said. "We had them down and it looked like they were in hand but they slipped out and made a really fine run at us. This Calloway club is a bunch of opportunists. They cashed in on every mistake that we made late in the game."

"We made our mistakes just when we didn't need to. Our errors nearly cost us this game. They play a really tough pressure defense," Norris added.

Mike Wells and Randy McCallon both made trips to the foul line in the next five seconds. Four points later the score was 79-81 and 30 seconds remained on the clock.

Timeout Lone Oak with nine seconds left in the game and the Flash coming to the

charity stripe. Then Calloway called timeout just as the ball was to be put in play!

Lone Oak put the ball up and it came off to Mike Wells with only seven seconds showing.

"If we scored I wanted our kids to call timeout," Norris said. "In the event that we didn't score at the line I wanted them to get back on defense fast, clog the middle, and keep Wells or Futrell from getting the shot and they did it!"

The Lakers came up the floor and right into the trap laid by the Flash just across the time line. Lone Oak came up with the ball and drew the free trip to the line with only one second left in the game.

At the horn it was 84-81 Lone Oak and everyone had goosebumps!

"We really didn't play that well through most of the game," Slone said. "But I was really proud of the way the kids came back when it looked like the game was out of reach. These boys wanted to win tonight. They extended

themselves more trying to win this one than they have all season. They played like I know they can."

"This game was not lost in the last nine seconds; we made mistakes all night. We were just too far behind when we made our run and we fell just a little short but we showed what we can do," Slone continued.

Calloway drops to 13-10 with the loss.

In B-team action Lone Oak defeated the Lakers 55-47.

# Gateway ADD 'Fiscally Weak' Auditor's Office Says

FRANKFORT, Ky. (AP)—The state's first audit of an area development district has found the district to be "fiscally weak" and has set the state auditor's office on the trail of a missing \$10,000.

State Auditor George Atkins said Tuesday that his office will join the Gateway Area Development District's attorney in an effort to trace the \$10,000 allegedly lost by district employees.

He said the district board will decide at a meeting Feb. 22 whether other action should be taken in light of the audit, which indicated the district "has experienced significant problems and difficulties in attempting to serve the needs of local governments in Bath, Menifee, Montgomery, Morgan and Rowan counties."

Atkins recommended that the board "should explicitly approve all contracts, agreements, and large and/or unusual expenditures," and that the executive director "should be bonded for an amount commensurate with (his) fiscal responsibilities."

He said these and other recommendations for Gateway could also help "strengthen the accountability" of Kentucky's other 14 area development districts.

Atkins said he knew of no other district suffering financial problems as severe as Gateway's, but "we're going to be sampling figures from some of the others."

The area development districts coordinate the flow of federal, state, and local funds for projects such as parks, playgrounds, community centers, and sewer systems, Atkins said.

He said Gateway's was the first audit in which a district has been financially probed "completely," as an organization.

It turned out, he said, that in the early 1970s, Gateway was "burdened with numerous lawsuits (some still in litigation) and financial disputes with state and federal agencies."

Atkins said "significant progress has been made in Gateway's accounting and bookkeeping policies" and he praised "recent efforts to solve Gateway's financial problems."

However, he added, "the financial position of the Gateway Area Development District is still weak and caution and care should be exercised along with prudent fiscal management."

## Deaths and Funerals

### Mrs. Bill Hill Is Dead At Age Of 44 Funeral Is Today For Mrs. Overby Final Rites Held For Mr. Humphries

Mrs. Bill (Barbara June) Hill died this morning at the Methodist Hospital, Memphis, Tenn. She was 44 years of age and her death followed an extended illness.

The deceased was a resident of 5114 Gill Drive, Memphis, Tenn., and was the daughter of Mr. and Mrs. Earl Parker of 505 South 13th Street, Murray.

Mrs. Hill is survived by her husband, Bill, and daughter, Stephanie Hill, 5114 Gill Drive, Memphis, Tenn.; two sons, Danny Hill, Memphis, Tenn., and James Hill, Ann Arbor, Mich.; her parents, Mr. and Mrs. Parker, Murray; two sisters, Mrs. Charles Broach, Calvert City, and Mrs. William Sanders, Elizabethtown; one brother, Billy Parker, Lake City, S. C.

The Max Churchill Funeral Home of Murray will have charge of the funeral and burial arrangements which are still incomplete.

### W. F. Glover Dies Suddenly Tuesday; Rites Are Thursday

W. F. Glover, age 48, died Tuesday at 2:45 p. m. at his home. His sudden death was from an apparent heart attack; however he had been in ill health.

The deceased, a resident of Hardin Route One, was an employee of the Sanitation Department of Murray State University. Born May 29, 1928, in Calloway County, he was the son of Willie F. Glover and Eerie Opal Youngblood Glover, who survive.

Mr. Glover is survived by his parents, Mr. and Mrs. Glover; Hardin Route One; two sisters, Mrs. Leon (Mary) McKeel, 310 South Tenth Street, Murray, and Mrs. R. J. (Shirley) McDougal, Almo Route One; two brothers, Jack Glover and John W. Glover, Almo Route One.

The funeral will be held Thursday at two p. m. at the chapel of the Max Churchill Funeral Home with the Rev. Glen Cope and the Rev. Howard Conner officiating. Burial will be in the Murray Memorial Gardens.

Friends may call at the funeral home after three p. m. today (Wednesday).

### Mrs. Rutland Dies Tuesday; Funeral To Be On Thursday

Mrs. Guy (Mary) Rutland of Almo died Tuesday at three p. m. at the Murray-Calloway County Hospital. She was 66 years of age.

The deceased was a member of the Temple Hill United Methodist Church. She and her husband, Guy Rutland, who survives, celebrated their 50th wedding anniversary on January 8 of this year. Born May 7, 1910, in Stewart County, Tenn., she was the daughter of the late James Houston and Dolcie Lyons Houston.

Mrs. Rutland is survived by her husband, Guy; two daughters, Mrs. Frank (Edna) Wofford, Dover, Tenn., and Mrs. Bill (Peggy) Avery, Powell, Tenn.; two sons, Jimmy Rutland, Dexter Route One, and Don Rutland, Murray Route Four; two sisters, Mrs. Nell Rushing, Paris, Tenn., and Mrs. Goldie Lancaster, Dover, Tenn.; one brother, Hollie Houston, Dover, Tenn.; seven grandchildren, Mrs. Betty Stradtner, Mrs. Judy Smith, Tony, Herbert and Melissa Avery, Jamie and Sheila Rutland.

The funeral will be held Thursday at two p. m. at the chapel of the J. H. Churchill Funeral Home with the Rev. Ralph Rogers and the Rev. A. H. McLeod officiating. Burial will be in the Temple Hill Cemetery.

Friends may call at the funeral home after four p. m. today (Wednesday).

## Calloway Honor Roll For Second Nine Weeks Listed

One hundred and sixty-eight students are listed on the second nine weeks honor roll at Calloway County High School according to the school principal, Ron McAlister. Twenty students made all A's and 148 made all A's and B's.

**Seniors**  
All A's — Margaret McCallon, Linda McCuiston, Patricia Melvin, and Terri Morris.  
All A's and B's — Donna

## Gunman Still Holding Man In Indiana

INDIANAPOLIS (AP) — A gunman who said he was "ready to die" remained holed up in an apartment today with the mortgage company executive he had taken hostage with the muzzle of a sawed-off shotgun wired to his neck. Police reported the gunman was growing edgy.

Authorities drafted papers offering immunity from prosecution for Anthony G. Kirtitsis, 44, of Indianapolis, for possible use in negotiations that continued as the drama passed the 24-hour mark this morning.

Kirtitsis, who had demolition training in the Army, claimed he had the third-floor apartment rigged with explosives.

Members of the Indianapolis police special weapons and tactics team, garbed in black, maintained a watch during the night. An Army bomb squad from nearby Ft. Harrison was on hand to disarm any explosive devices that might be found.

Police said reports were not true that dynamite was found wired to the ignition of Kirtitsis' car Tuesday.

Kirtitsis was described as distraught over a loan transaction and upset with what he considered unfair and inaccurate news reports of the taking of Richard O. Hall as a hostage.

Earlier, Kirtitsis had demanded and received a promise from Meridian Mortgage Co. that he would be released from a \$130,000 mortgage loan issued for property on which Kirtitsis hoped to build a shopping center. His hostage, Hall, is the 42-year-old son of Meridian's board chairman.

Section Two — Page 13

Wednesday, February 9, 1977

**SHARING AN HONOR**—Nat Sanders (left) of Louisville, executive director of the Kentucky State Real Estate Commission, presents a plaque to Murray State University officials to be exhibited for a period of time in the real estate display in the lobby of the Business Building. The plaque was awarded to the commission by the National Association of Real Estate License Law Officials in 1976 for having the outstanding real estate educational program in the United States and Canada. Accepting are: (from right) Russell Spurlock, commission chairholder and assistant professor of real estate; Ray Roberts, president of the Murray-Calloway County Board of Realtors and adjunct instructor of real estate; and Dr. William J. Grasty, chairman of the Department of Accounting and Finance. Murray State is one of 19 colleges and universities involved in the real estate education program funded by the commission and one of two offering a baccalaureate degree with a major in real estate. The first real estate course was offered on the campus in 1972. Six are being offered this spring, with 11 listed in the current catalog. Both the baccalaureate degree program and an associate degree program were initiated in the spring of 1976.

## Non-ROTC Sophomores Eligible For Course

Sophomores at Murray State University who are not currently enrolled in Military Science can still become

eligible for the two-year advanced Army ROTC course, Lieutenant Colonel Johnnie R. Prichard, Chairman of the

Department of Military Science at Murray State, announced this week. The same opportunity is available to junior college and community college graduates who will be entering Murray State next fall.

Colonel Prichard explained that students who do not take the basic ROTC course, Military Science I and II (MS I and II), may qualify for advanced ROTC by attending a special six-week summer program at Fort Knox.

At the basic camp, students receive instruction in communications and leadership techniques as well as military drill, tactics, history and weapons.

According to Colonel Prichard, "The ROTC Basic Camp stresses leadership development. Its purpose is to bring the student to a level of military education and experience which allows him or her to enter the advanced course next fall."

For most students, completion of either the basic course or the basic camp is required for enrollment in Military Science III (MS III). However, veterans normally receive credit for the basic course based on their prior service, and can enter directly

into the advanced program. The Military Science Department will be interviewing prospective candidates for the summer program until March 15. Students interested in basic camp and the advanced course should contact LTC Prichard or CPT Ellis Pennington at 762-3746, and they will be happy to explain the two-year program as it has several advantages and benefits that students will be interested in.

ROTC courses are electives taken along with the student's chosen major and usually take only about three hours out of a weekly class schedule.

Basic Camp cadets are paid nearly \$500 for the six weeks of training. While at basic camp, they also receive free room and board and are reimbursed for transportation to and from Fort Knox.

Students in the advanced course are paid \$100 a month for up to 10 months of each school year and upon graduation are commissioned as second lieutenants in the U. S. Army.

### Application

### Deadline For

### Artist Extended

FRANKFORT — Nancy Carpenter, director of the Kentucky Arts Commission's Artist-In-The Schools program announced the deadline for application by schools has been extended to Mar. 15.

The program, now in its sixth year, places working artists in the schools. Poets, who work a short term residency, and artists, who work for an entire year, don't replace the teachers in schools, Carpenter explained, but give students and teachers a chance to observe how a performing artist lives and works. The primary function of the artists is that of performing and practicing their arts, she continues, enriching the existing institutional program for students and teachers in "their" schools.

Artists schedule time each week to pursue their arts, whether writing poetry, painting, or filming. Workshops held during school hours help students explore their art with accompanying lectures and demonstrations. Students then can participate in discovering pottery techniques, writing poetry, or making their own films.

Schools interested in the program must submit application by March 15 by writing Nancy Carpenter at the Kentucky Arts Commission, 100 W. Main St., Frankfort, Ky. 40601.

## Carmen Adams Is MSU Mountain Laurel Choice

Carmen Adams of Valley Station, a sophomore at Murray State University, has been selected as the campus representative to compete for the title of queen of the 41st annual Mountain Laurel Festival in Pineville May 26-29.

She was chosen by a panel of judges from among six finalists who were rated on appearance, sincerity, personality, poise, and cooperativeness — the same qualities on which each queen candidate will be judged during the festival.

A theatre arts major, she is a blue-eyed brunette who is 5-7 and weighs 111 pounds. Miss Adams was a finalist last year as a freshman in the screening to choose a campus representative for the Mountain Laurel Festival.

Her parents are Mr. and Mrs. Lucian Adams. Her father retired last year as principal of Valley High School. Miss Adams is a 1975 graduate of Jesse Stuart High School.

"Stunned. Absolutely stunned," was her reaction to her selection. "It really caught me off guard — but after I got over the initial shock, I realized that considerable responsibility goes along with the honor. I just want to be a worthy representative of Murray State."

An honor student, Miss Adams has been included on the Dean's List each of the three semesters she has been enrolled at Murray State. She is a member of the Alpha Gamma Delta social sorority and Lambda Chi Alpha little sisters and has been in several University Theatre productions.

The other finalists in the campus screening were: Karen Gordon, Benton Route 8 junior, who is the alternate; Dana Dawes, Benton Route 1 sophomore; Selwyn Schultz, Murray junior; Debra Welch, Manchester, Mo., junior; and Debbie Wyatt, Mayfield sophomore.

Miss Adams will be one of many college coeds from across Kentucky vying for the title. The Mountain Laurel Festival has grown increasingly popular since its beginning in 1931 to honor Dr. Thomas Walker, pioneer explorer and surveyor, and to celebrate the blooming of the mountain laurel throughout the Southern Cumberland Mountains.

The colorful and entertaining four-day festival, which also includes the crowning of a high school Mountain Laurel Princess, is conducted in a setting of spectacular mountain scenery.

Coronation of the new queen by Gov. Julian Carroll will take place on Saturday, May 28, in Laurel Cove, a natural amphitheatre in Pine Mountain State Resort Park with a 150-foot sandstone cliff as a backdrop and reflecting pool in front of the grassy stage.

Carmen Adams

## Transportation Department Has Reduced Payroll 6.5 Per Cent

FRANKFORT—The state's Transportation Department (KYDOT) has released figures here showing that its employee payroll was reduced by a record 6.5 per cent during 1976.

State Transportation Secretary John C. Roberts said the record decline had the effect of lowering departmental personnel strength to the fewest number of employees ever reported since KYDOT was created almost four years ago.

According to those figures, the department ended 1976 with a total, permanent, full-time work force of 9,038 employees as compared with 9,397 for 1975, 9,359 for 1974 and 9,665 at the end of 1973.

KYDOT is one of the state's biggest employers, being second only to the Department for Human Resources.

(It was created in March 1973 under a reorganizational plan which abolished the old Department of Highways and transferred those responsibilities to the new KYDOT.)

The new department also took on a number of other programs, including Driver Licensing, Vehicle Inspection, Water Enforcement, Highway Safety Programs and Aeronautics.)

The sudden downturn in KYDOT's personnel strength figures during 1976 was attributed by Roberts to a

change in hiring policies first put into effect early last spring, and aimed primarily at the department's two largest sections—the Bureau of Highways and Office of Transportation Planning.

"What we did," said Roberts, "was to limit future hiring to real job need, much in the same way as private industry has always operated."

It was done, he said, by setting quota limitations on the number of employees needed to accomplish a particular job or jobs within a program area.

For example, in the case of highway maintenance crews which constitute the bulk of the employment within the department, quota limitations on employment were established under a formula which took into account such factors as miles of roads maintained and the average amount of work which each crew member could reasonably be expected to perform.

"Where current employment was above the quota limitation, no one was fired, but all future hiring was frozen and will remain frozen until attrition, retirement or transfers creates vacancies with quota limits," he said.

Roberts went on to say that had the new hiring policy not been put into effect when it

was, the department's payroll costs would have risen by at least another \$360,000 a month by the end of 1976.

### SALE OF MOHAIR

Bicycles recycled as spinning wheels in Lesotho are a vital part of a CARE project in the tiny mountainous country in southern Africa. In addition to the spinning wheels, the international aid and development agency provides training and other needed equipment for village women to spin and refine mohair, their country's major natural resource. The sale of the mohair helps support their families since most of the men leave Lesotho to work in the gold mines of South Africa.

The sinking of the Titanic on April 15, 1912, cost the lives of 1,517 persons.

SHOP TALK—Rhonda Lee of Carlyle, Ill., a junior journalism major at Murray State University and news editor of the Murray State News, discussed the news room operation on the campus with Ann Tharp of Elizabethtown (right), president of the Kentucky Ladies Task Force. Mrs. Tharp was on the campus to present a \$250 scholarship to Miss Lee on behalf of the organization of women affiliated with the Kentucky Association of Electric Cooperatives. The spring semester award is the first of what will be an annual \$500 scholarship beginning in 1977-78.

## Rhonda Lee Is Awarded Scholarship For Spring

Rhonda Lee of Carlyle, Ill., a junior journalism major at Murray State University, has been awarded a \$250 spring semester scholarship by the Kentucky Ladies Task Force, an organization of women affiliated with the Kentucky Association of Electric Cooperatives (KAEC).

Miss Lee, news editor of The Murray State News, the campus newspaper, is the first recipient of the scholarship. Her parents are Mr. and Mrs. Harold Lee of Carlyle. She has also served as a reporter and assistant news editor of the campus newspaper and is a member of the campus chapter of The Society of Professional Journalists, Sigma Delta Chi.

Organized in 1971, the task force is made up of wives of managers and directors, as well as women members, of the 26 local electric cooperatives in Kentucky.

Ann Tharp of Elizabethtown, president of the task force, made the scholarship presentation. Her husband is Clem Tharp, manager of the Nolin Rural Electric Cooperative Corporation.

Fran Maierhauser, women's editor of The Rural Kentuckian, the statewide publication of the KAEC, was also on the campus for the scholarship presentation.

Beginning in 1977-78, the scholarship will be an annual award of \$500. It will go each year to a junior journalism or communications major at a state university.

Mrs. Tharp said money for the scholarship was raised by selling prints and note cards reproduced from a painting by Nellie Meadows, Kentucky's Bicentennial artist, commissioned by the task force. It shows seven lighting devices depicting the evolution from the most primitive to the most modern.

## State Police Report Given For January

The lowest traffic fatality count state wide since January 1962 has been recorded in the state of Kentucky for January, according to Trooper Richard Wright, public information officer for Post One of the Kentucky State Police.

Trooper Wright said the state recorded forty-one deaths due to traffic accidents in January of this year as compared to thirty-nine in 1962. The trooper said the lower death rate was attributed to the lower traffic volume due to the inclement weather.

The average death rate due to traffic in the past fifteen preceding years for January, has been sixty-four deaths per month.

During January in Calloway County the Kentucky State Police issued thirty-three citations, gave twenty-six warnings, assisted 163 motorists, investigated sixteen accidents, and arrested three drunk drivers, according to Trooper Wright.

In the Post One area covering eleven counties, the state police issued 985

citations, gave 475 warnings, assisted 1,050 motorists, investigated 245 accidents, arrested 74 drunk drivers, and made twenty criminal investigations with 28 criminal arrests.

The uniformed personnel traveled 101,604 miles in January of this year. Six traffic fatalities were reported in the Post One Area as compared to one in 1976 for January.

Trooper Wright said persons may call the State Police at a toll free number now which is 1-800-592-5401.

### Horse Shows Set At Expo Center

Approved American Quarter Horse Association shows are scheduled Feb. 26 and April 16 at the West Kentucky Livestock and Exposition Center on College Farm Road in Murray.

Sponsored by the Horsemen's Club of Murray State University, each one-day event in the year-old facility on the university farm will begin at 9 a. m. with halter classes and continue throughout the afternoon with performance and youth activity classes.

They will be the second and third approved shows of 1977. A spokesman for the sponsoring club expressed the hope that better weather and more advanced notice will mean greater participation by both exhibitors and spectators than in the earlier show in January.

An open show on April 15 will precede the April show.

# FREE DICTIONARY!

Buy Volumes 2 & 3 of Funk & Wagnalls New Encyclopedia for just \$2.49 each and get a free dictionary in the bargain.

Right now, at all our stores, you get the famous 2-volume Funk & Wagnalls Standard Desk Dictionary free when you purchase Volumes 2 and 3 of Funk & Wagnalls New Encyclopedia at the regular price.

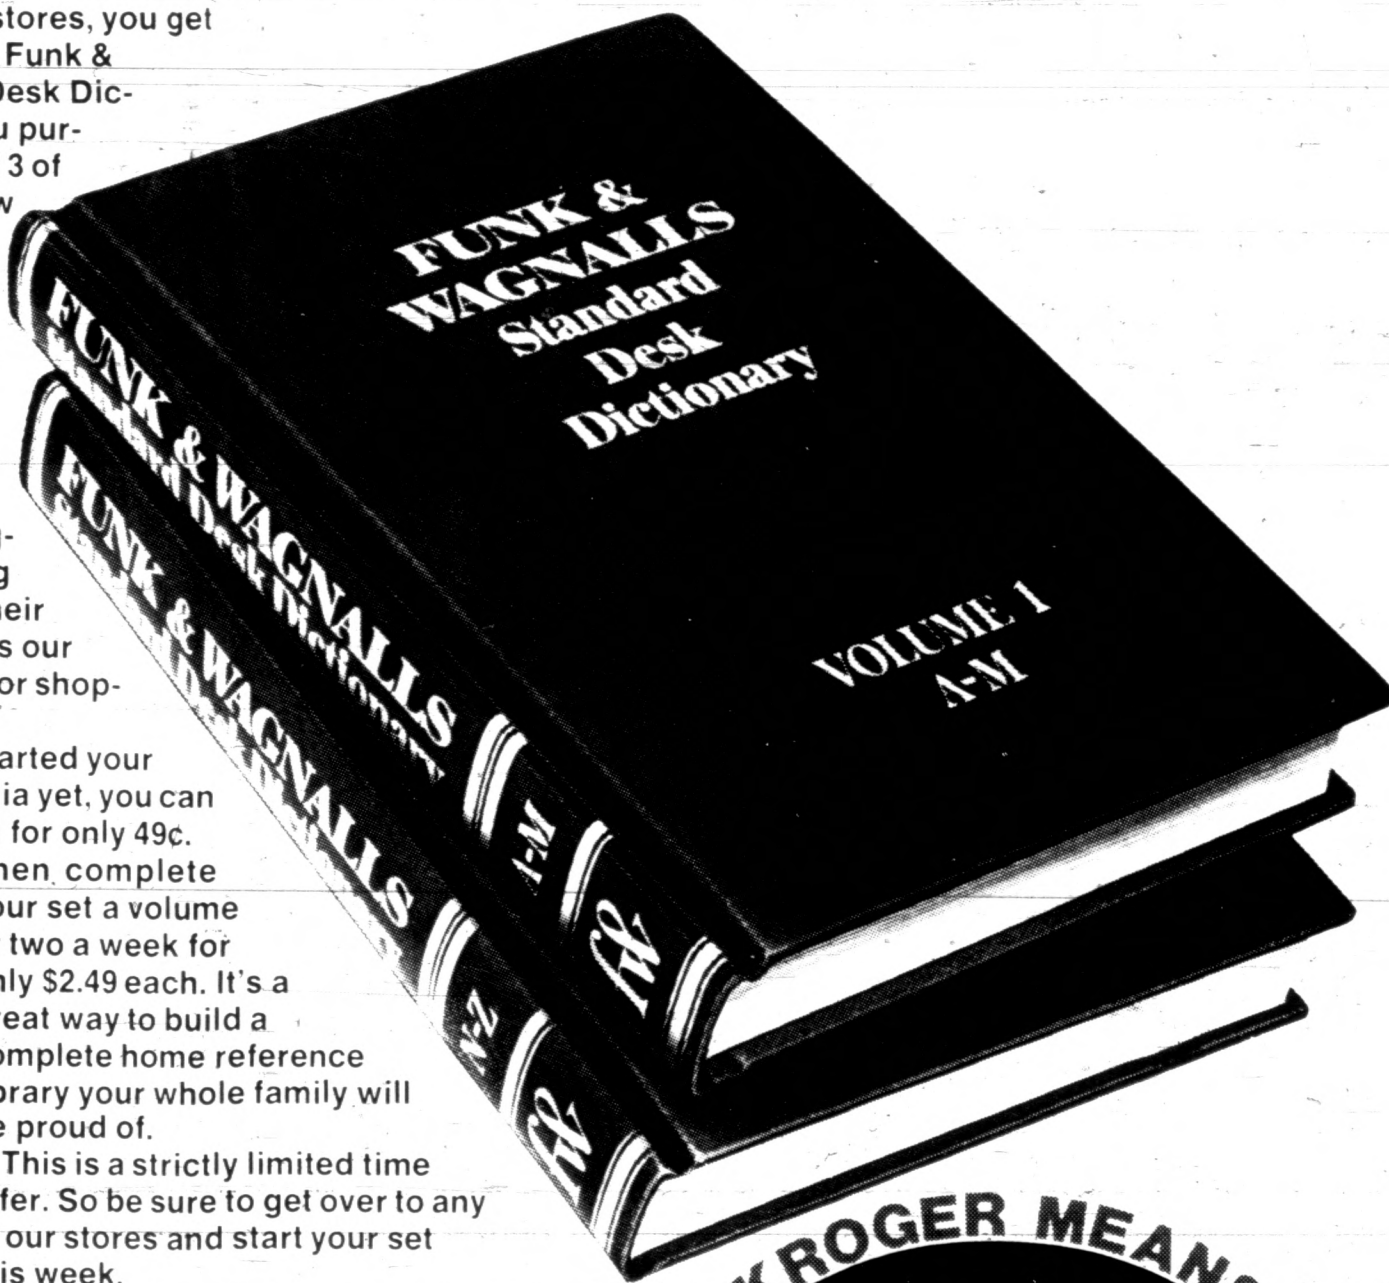

This dictionary is bound in beautiful, leather-grained covers that complement the encyclopedia.

This is Funk & Wagnalls' way of thanking you for purchasing their fine encyclopedia. It's our way of thanking you for shopping in our stores.

So if you haven't started your set of the encyclopedia yet, you can still pick up Volume 1 for only 49¢.

Then, complete your set a volume or two a week for only \$2.49 each. It's a great way to build a complete home reference library your whole family will be proud of.

This is a strictly limited time offer. So be sure to get over to any of our stores and start your set this week.

VOLUME 1 OF FUNK & WAGNALLS NEW ENCYCLOPEDIA STILL ONLY 49¢.

Loan Funds Available For  
Summer Term At University

Loan funds are expected to be available for the 1977 summer term for eligible students at Murray State University who are seeking assistance through the National Direct Student Loan (NDSL) program.

Johnny McDougal, director of student financial aid at Murray State, said applicants for summer loans must file a completed "Summer Term Only" application in the Student Financial Aid Office on the campus by March 1. He emphasized that the separate application, which is available in the Student Financial Aid Office, is required if NDSL assistance is being requested for the summer term.

More than \$75,000 was loaned to students at Murray State last summer through the NDSL program, which is the largest source of loan funds administered by the university, according to McDougal.

Loans are made at three per cent interest and the interest begins to accrue nine months after the borrower leaves school.

Both undergraduate and graduate students enrolled for at least a half-time academic load are eligible to apply. To

qualify, an applicant must establish a need for financial assistance as determined by federal guidelines and regulations and show evidence of academic promise.

S. G. Hale, fiscal officer in the Student Financial Aid Office, said National Direct Student Loans are repaid on a quarterly schedule over a 10-year period, with the first obligation due one year after leaving school. Deferment of repayment can be given to borrowers who choose to continue their education or who choose military, Peace Corps, or VISTA service.

Teachers in special education or in designated poverty areas may have a percentage of their loan repayment obligation canceled each year, with cancellation of the entire loan, plus interest, possible in five years.

All transactions during the obligation period are handled by the Student Financial Aid Office. Further inquiries about the NDSL program or requests for application forms should be directed to: Student Financial Aid Office, Sparks Hall, Murray State University, Murray, Ky., 42071, telephone (502) 762-2546.

Your Individual Horoscope  
Frances Drake

FOR THURSDAY, FEBRUARY 10, 1977

What kind of day will tomorrow be? To find out what the stars say, read the forecast given for your birth sign.

**ARIES**  
(Mar. 21 to Apr. 20)

Indications are that a bit of luck is coming your way. Take a chance—especially in an activity which stimulates your imagination.

**TAURUS**  
(Apr. 21 to May 21)

Your Venus highly propitious. A creative idea could prove more remunerative than you suppose. Fine gains indicated if you play your cards well.

**GEMINI**  
(May 22 to June 21)

You may have to revise some plans now. Others may assist somewhat but, in general, you must draft your own alterations.

**CANCER**  
(June 22 to July 23)

Straying off the beaten path not advisable. You'll find more opportunities and greater satisfaction close to home.

**LEO**  
(July 24 to Aug. 23)

Fine cooperation from others indicated; also the possibility of an interesting proposition. Once you have checked its potentials,

act accordingly.

**VIRGO**  
(Aug. 24 to Sept. 23)

Good stellar influences, but a few "tricky" spots will bear watching. Properly alert, however, you can eradicate them and go on to bigger and better things.

**LIBRA**  
(Sept. 24 to Oct. 23)

Some unusual development in the making will affect you pleasantly. Especially favored now: romance, travel and cultural pursuits.

**SCORPIO**  
(Oct. 24 to Nov. 23)

Certain persons may make irresponsible statements: Do not be trapped, or follow any suggestion without investigating for truth.

**SAGITTARIUS**  
(Nov. 24 to Dec. 23)

Expand in operations going well, setting a better pace for speedier results. Stress your fine organizational ability.

**CAPRICORN**  
(Dec. 24 to Jan. 20)

Trouble-free performance should be yours this day. Direct your efforts astutely to encompass all essentials. Pet projects should go over with a bang.

**AQUARIUS**  
(Jan. 21 to Feb. 19)

Stellar aspects fairly favorable, but you may have to work a little harder for benefits. Also, two admonitions: Avoid the bizarre and DO be careful if dealing with strangers.

**PISCES**  
(Feb. 20 to Mar. 20)

Mixed influences. Confusion could reign if you are not on guard. Do not let slight misunderstandings blow into a storm. Use your wits.

**YOU BORN TODAY** are endowed with a fine mind, a lively imagination and unusual versatility. Your personality is dynamic and, being extremely gregarious, you make friends easily and are a delightful and witty companion. Despite a sometimes seeming frivolity, however, within yourself you have great depth, poise and tremendous reserves of power. You appreciate the artistic and have talents along these lines yourself; would make an excellent writer, journalist, painter, musician or entertainer. If your likings are more toward the commercial, you would make an extremely shrewd businessman or businesswoman outstanding for organizational ability.

# Casey County Women Claim To Have Been Captured By Occupants Of Unidentified Flying Object

**LIBERTY, Ky. (AP)** — Three Casey County women have made public a story about not only seeing an unidentified flying object, but being captured by its occupants.

They're backing up the story with such proof as testimony from a clinical

psychologist and a lie detector expert and they claim they were held prisoner about 13 months ago for about 75 minutes.

One of the three claims "they pulled my eyes out," a second said the eye of one of the beings had "scales around it, like a turtle's," and the

third described the beings as "about four-feet tall."

The descriptions and comments came during separate sessions of hypnosis administered by Dr. Leo Sprinkle, director of counseling and testing at the University of Wyoming.

Hypnosis was used on Elaine Thomas, 49; Louise Smith, 44, and Mona Stafford, 36, because they couldn't remember what happened to them after they spotted an unidentified flying object (UFO) one night more than a year ago.

All three remember seeing the object in the sky as they drove him from a restaurant where they had had dinner. All three also recall that it seemed to be controlling their car.

"I couldn't hold the car on the road," Mrs. Smith said. "It was shaking back and forth. The speedometer showed 85 and Mona and Elaine were screaming at me to slow down, but my foot wasn't even on the gas pedal," she said.

"I was pleading with her to stop," Mrs. Thomas said. "I knew it was a UFO. I had never seen one before, but I knew what it was."

The three women said they experienced severe pain in the top of their heads and after the car filled with "a hazy-like air, sort of like a fog," they lost consciousness.

They said they awoke about 75 minutes later eight miles away, seated in the same positions in the car as they had been earlier. They couldn't remember what took place during the missing time.

"People laughed at us," Mrs. Smith said. "They made jokes about us and when we walked down the street, they asked us about 'Little green men.'"

However, UFO researchers in Cincinnati became interested in the women's story and a national tabloid newspaper hired Dr. Sprinkle

to use hypnosis to help the women remember.

After their sessions with the clinical psychologist, the women were given lie detector tests by Detective James Young of the Lexington Police Department and his report says he found "no indications of deception."

Under hypnosis, Sprinkle reported, the women told an eerie story, one the psychologist terms "similar to other reports over the years."

"Something was over my face," Mrs. Smith said. "It was so hot in there I could hardly breathe. I was restrained on a table. The pain was so bad. They poured something over me and when they pulled it off, it came away like tape, like they were making a mold of me," she continued.

Then I saw one of them. It was about four-feet tall and wearing a hooded thing. All I could see was its eyes. They were bigger than human eyes and slanted.

"They were so piercing. It never said a word, but somehow when it looked at me, I knew everything it wanted me to do," Mrs. Smith said.

"They pulled my eyes out," Miss Stafford said. "I mean they drew them right out of my head and laid them over my cheeks."

"I was on a white table as big as a bed. I couldn't move, but nobody was holding me down. It was some sort of power doing it, a big crystal with lightning coming out of it."

Mrs. Thomas said she was put in a chamber. "I fit there just perfectly—couldn't move a finger. There was something wet on my face and something pressing into my chest."

"I could see them. They floated in the air around me. I could tell they didn't want me to talk. I could understand their thought waves," she continued.

"I saw one close-up. There was a big, pale blue eye with scales around it, like a turtle's eye," Mrs. Thomas said.

When they regained consciousness after the incident Jan. 6, 1976, the women said each of them had a fresh burnlike mark on their necks, each about three inches long.

Miss Stafford said she had acute pain in both eyes and a new blister under one of her rings.

After driving back to their homes here, Mrs. Smith glanced at her watch and almost became hysterical, she said.

"I've never seen anything like it. The minute hand was turning as fast as the second hand. I thought I was losing my mind," she said.

The three, along with Dr. Sprinkle, will appear on national television (NBC, "Tomorrow") Wednesday night to tell their tale in public for the first time.

"I want to help other people be aware of these things," Mrs. Smith said.

A LITTLE DARLING—Six-year-old Jenny Darling watches the action as she sits on the front row in front of the cheerleaders and cheers for Murray State in the Racers' Saturday night win over Eastern Kentucky. Jenny is the daughter of Mr. and Mrs. Terry Darling of College Court.
